

Installation Guide

Revolutionary Comfort

Revolutionary Comfort

Focused on OEM integration, to produce the most comfortable, reliable, most advanced smart air suspension system.

OnAir is the newest and the best product Masoair has released after 8 years of constant innovation and improvements. No drilling and damaging to the vehicle body, to deliver the best overall user experience.

WARNING:

Do not adjust the height of the air strut as it's designed for the vehicle intended on the manual.

This product is only applied to: Tesla Model 3 / Y
